Re: Proposed Roadway Reconstruction  
Public Meetings

As you are aware, the Old Mill Road Area is undergoing major construction. Included in the overall project is roadway reconstruction, we will have to perform minor drainage and grading as well.

Since there have been many concerns raised during the construction, we will be conducting public information sessions where the public can receive construction updates and voice their concerns with the project. These sessions will be held on Tuesday evenings at 6:00 pm at Spencer School cafeteria, located on Westfield Street. They will start on April 9, 2019. So far we have scheduled these for April 9, 16, 23, and 30. At that time we will evaluate the frequency of the meetings.

Please email Steve White from Cardinal Engineering at [swhiterpr@gmail.com](mailto:swhiterpr@gmail.com) with your email to receive periodic construction updates.

We appreciate your patience during this disruptive construction process. If you have any questions on this matter, please feel free to contact the Public Works Department at 860-638-4850.

Sincerely,

A handwritten signature in blue ink, appearing to read "C. Holden", is written over a horizontal line.

Christopher M. Holden, PE  
Deputy Director of Public Works
