**Subject:** 392 Washington Street - comments for 9/23/20 P&Z meeting

**This email was sent by someone outside of the City of Middletown.**

To Members of the City of Middletown Planning & Zoning Commission:

Please be advised that as the owner of property located at 396 Washington St. I wish to oppose the change in use request for a mental health/substance abuse counseling facility at 392 Washington St. There are many empty buildings and other locations in the State of Connecticut that are better situated for this type of facility. Putting this type of facility next to prosperous businesses and so close to a residential area would be detrimental to the area. The customers and families of those currently doing business and living in this neighborhood need to be kept safe from drug addicted individuals wandering the streets.

Thank you for hearing my concerns on this matter.

Sincerely,  
Virginia Marino Negrelli, Marino Realty  
Owner, 396 Washington St.
