## **Announcement of MS4 Storm Water Management Plan Public Notice**

### **2025 MS4 Annual Report**

February 16, 2026

The City of Middletown holds a registration under the General Permit for the Discharge of Stormwater from Small Municipal Separate Storm Sewer Systems (MS4). Part of our Stormwater Management Plan requires an annual report to be submitted to the Department of Energy and Environmental Protection.

This report is prepared to document current efforts and data collected from various City departments. We encourage all residents to be involved with our community events to learn what we can do to improve our environment.

Questions and comments can be addressed to the City's Engineering Department.

The annual report is also available at both the Public Works Engineering Department at 245 deKoven Drive and at the information desk at Russell Library.

This report is to be submitted to DEEP by April 15th, 2026.

Comments and questions are due by April 5th to the Engineering Department at 860-638-4850.

Thank you in advance for your participation.
