Re: 131 Wadsworth Street; Middletown, Ct

Dear Mr. Jarvis:

Pursuant to your request we have completed an Appraisal of the above captioned property, more specifically described herein. The Objective of the Appraisal is to estimate Market Value of the Subject reflecting market conditions as of 7/1/2002, the date of the engagement. The Purpose of the Appraisal is for sale. The premises of the Appraisal is a .34 acre improved residential site located on an suburban arterial in a stable location nearby a substantial neighborhood equity holder.

After careful analysis and review of the salient and pertinent data, we estimate the Market Value of the Subject, in Fee Simple, reflecting market conditions as of 7/01/2002, to be:

\$78,000.00

[Seventy Eight Thousand Dollars]

If you have any questions, please do not hesitate to contact us at our offices.

Respectfully submitted,

David A. Santacroce, CGA
Santacroce Associates, LLC
Real Estate Appraisers & Consultants

An Equal Opportunity Employer

PURPOSE OF THE APPRAISAL

The purpose of this Appraisal is to estimate the Market Value of 131 Wadsworth Street in Middletown, Ct as of 7/1/2002 for conveyance purposes.

MARKET VALUE DEFINITION

Market Value is defined as (OCC Rule 12 CFR 34.43 (F)):

The most probable price which a property would bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and Seller are typically motivated;
2. Both parties are well informed, or well advised, and both acting in what they consider their own best interests;
3. A reasonable time is allowed for exposure in the open market;
4. Payment is made in terms of cash in United States dollars or in terms of financial arrangements comparable thereto; and,
5. The price reflects the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

EXPOSURE TIME

Exposure Time is defined by the Appraisal Standards Board [ASB] as the estimated length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of sale at Market Value on the Effective Date of the Appraisal; a retrospective estimate based upon an analysis of past events assuming a competitive and open market.

MARKETING TIME

The reasonable marketing time is an estimate of the amount of time it might take to sell a property interest in real estate at the estimated market value during the period immediately after the effective date of the Appraisal as defined by the Appraisal Standards Board.

CERTIFICATION OF THE APPRAISER

I certify, that to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, unbiased professional analyses, opinions and conclusions.
- I have no interest, present or prospective, in the property that is the subject of this report, and I have no personal interest or bias with respect to the parties involved.
- My compensation is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result, or the occurrence of a subsequent event.
- My analyses, opinions, and conclusions were developed, and this report has been prepared in conformity with the Uniform Standards of Professional Appraisal Practice.
- I have made a personal inspection of the property that is the Subject of this Appraisal.
- No one provided significant professional assistance to the person signing the report.
- This Appraisal assignment was not based on a requested minimum valuation, a specific valuation, or the approval of a loan.

CONTINGENT AND LIMITING CONDITIONS

The Certification of the Appraiser appearing in this Appraisal Report is subject to the following conditions and to such other specific limiting conditions and assumptions as set forth by the Appraiser:

1. The Appraiser assumes no responsibility in matters of a legal nature affecting the property appraised or the title thereto; nor is the Appraiser rendering a legal opinion as to Title which is assumed to be good and marketable. The property is appraised as though under responsible ownership.
2. Sketches in this report show approximate dimensions and are included to assist the recipient in formulating a reasonable understanding of the property appraised. No survey has been made although maps and sketches are believed to be reasonably and approximately accurate.
3. The Appraiser assumes that there are no apparent conditions to the property such as hazardous wastes, toxic discharges, buried or abandoned underground or above ground storage tanks, or holding devices of similar nature. We are held harmless from any conditions, direct or consequential, related thereto. We assume no liability for contamination, disposal, testing, removal, treatment or remediation for any such conditions. Environmental analysis is beyond the scope of this Appraisal.
4. All information contained within this report is obtained from sources believed to be reliable. This information is in no sense guaranteed. A personal inspection of the property has been made.
5. Possession of this Report does not give the possessor Right of Publication. The Appraiser reserves the Right to restrict publication of this Report and then only to permit it in a complete and full form.
6. Distribution of the total valuation between land and improvements applies to the present state of utilization or alternative equal use. This study is invalidated under other programs and utilizations.
7. The Appraiser has no present or contemplated interest in the Subject property and our employment as the Appraisers was in no way contingent upon the value conclusion of this Report.
8. Inspection of the Subject property was for the purpose of estimating a specified value. The inspection was in no way related to codes, standards, life safety standards or to the Americans With Disabilities Act of 1/26/92. It is possible that inspection of the Subject property would reveal conditions not conformal to those codes prevailing as partially enumerated above.
9. Environmental analysis is beyond the Scope of this Appraisal Report. We encourage execution of due diligence via expert analysis.
10. It is assumed that all use and occupancy permits, insurances, and administrative approvals, license and/or authorizations are in effect over the Subject property or are otherwise renewable.

An Equal Opportunity Employer

11. It is assumed that all applicable zoning and use regulations have been complied with; any nonconformities have been stated and considered in this report.
12. Boundaries shown on map abstracts are approximate and are not measured or surveyed by the Appraiser for accuracy or correctness. Mapping is intended to convey an overview only of the properties referenced.
13. The Appraiser is not obligated to provide testimony in a legal proceeding without prior consent.
14. On Appraisals involving proposed construction, the Appraisal Report and value conclusions as to property value are contingent upon completion of the proposed improvements with plans and specifications provided by receipted statement relative to the assignment.
15. Neither all nor any part of the contents of this Report or copy thereof [including conclusions as to property value, the identity of the Appraiser, professional designations, reference to any professional appraisal organizations] shall be used by anyone but the mortgagee or its successors and assigns, mortgage insurers, consultants, professional appraisal organizations, any state or federally approved financial institution, any department, agency or instrumentality of the United States or of the District of Columbia without the previous written consent of the Appraiser; nor shall it be conveyed by anyone to the public through advertising, public relations, news, sales, or other media without the written consent of the Appraiser.

An Equal Opportunity Employer

APPROACHES TO VALUE

There are three classical Approaches which are utilized in estimating the Market Value of Real Estate. These Approaches are defined as following:

COST APPROACH TO VALUE

That Approach in Appraisal Practice which is based on the proposition that the informed purchaser would pay no more than the cost of producing a substitute property with the same utility as the Subject property. It is particularly applicable when the property being appraised involves relatively new improvements which represents the Highest and Best Use of the land or when relatively unique or specialized improvements are on site for which there exists no comparable properties on the market.

DIRECT SALE COMPARISON APPROACH

That Approach in Appraisal Practice which is based on the proposition that an informed purchaser would pay no more for a property than the cost to him of acquiring an existing property with the same utility. This Approach is most applicable when an active market provides sufficient quantities of related and reliable sales data which can be verified by authoritative sources. This Approach is relatively unreliable in an inactive market or in the estimation of value of properties for which no comparable sales exist. It is also questionable when sales data cannot be verified with principals to the transaction.

INCOME APPROACH TO VALUE

That procedure in Appraisal Practice which converts anticipated benefits [dollar income or amenities] to be derived from the ownership of the Property into a Value Estimate. The Income Approach is widely applied in appraising income producing property.

An Equal Opportunity Employer

HIGHEST AND BEST USE

That reasonable and probable use that will support the highest present value, as defined, as of the effective date of the Appraisal. Alternatively, that use from among reasonable, probable and legal alternative uses, found to be physically possible, appropriately supported, financially feasible, in which results the highest land value.

This definition above applies specifically to the Highest and Best Use of the land. It is recognized that in cases where the site has existing improvements on it, the Highest and Best Use may very well be determined to be different from existing use. The existing use will continue, however, unless and until land value, in its Highest and Best Use exceeds the total value of the property in its existing use.

Implied within these definitions is recognition of the contribution of that specific use to community environment or to community development goals in addition to wealth maximization of individual property owners.

Also implied is that determination of Highest and Best Use resulting from the Appraisers judgement and analytical skills represents an Opinion and not a fact to be found.

In Appraisal practice, the the concept of Highest and Best Use represents the basis upon which Value is estimated.

In the context of Most Probable Selling Price [Market Value] another appropriate term to reflect the Highest and Best Use would be the Most Probable Use.

In the context of investment value an alternative term would be Most Profitable Use

An Equal Opportunity Employer

The Financial Institutions Reform, Recovery and Enforcement Act [FIRREA] requires an Appraiser to have the knowledge and experience necessary to perform a specific Appraisal assignment. Reference is made to the qualifications, education and experience of the Appraiser cited in the Appraisal Report. These demonstrate a competency commensurate with the requirements to appraise the Subject property.

tions subject to setback requirements. Urban debris on the site is considered to impede saleability by the cost of removal and repair.

SALES:

Sale 3 is adjusted downward for its better location relative to its proximity to a dominant favorable equity holder. Sales 1 and 3 are adjusted upward for their lesser site area. Sale 2 is adjusted downward for its rear yard siting on an urban lake and downward for its lesser actual and effective ages. Sale 3 is adjusted downward for its better condition. Sales were selected on the basis of age and condition.

RECONCILIATION: The Market Value is based on Sale 3 as the most recent sale of a 3 bedroom home in an equal institutional location.

VALUE ESTIMATE: \$78,000

ADDENDA TO THE APPRAISAL

ADDRESS: 131 WADSWORTH STREET
MIDDLETOWN, CT

SCOPE:

The Scope of this Appraisal has included an on site inspection on 7/01/2002. A review of zoning requirements and land records has been made to provide a reasoned analysis of Highest and Best Use of the land. Comparable sale data has been acquired via sources considered reliable by practice, by statute, or both. No data has been compiled, included or excluded that would tend to support a predetermined value conclusion. The data developed is believed to reflect prevailing market conditions as of the effective date of the Appraisal.

This Report represents a Summary discussion of a Complete Appraisal and sets forth the data and analysis supporting our opinion of Market Value, as defined herein and does not invoke the departure provision. The Appraisal and Report are completed in conformance to the Uniform Standards of Professional Appraisal Practice as set forth in Standards Rule 2-2B. Data sources are cited in the body of the form report. Financing conditions are also included when the information is available. This Addenda is a part of the Summary Report and contains the elaboration on citations and the rationale for the adjustment process. Adjustments in the Sale Comparison Analysis attempt to reflect the response of the typical purchaser to prevailing market conditions that can be observed in fact. The Direct Sale Comparison Approach is reliable in this case as an active market exists from which observations can be made in the Subject neighborhood. The Scope of this Appraisal is believed to employ those steps generally undertaken for the valuation of real property interests.

This Appraisal is of the Fee Simple Estate. Fee Simple Estate is defined in the Dictionary of Real Estate Appraisal [American Institute of Real Estate Appraisers, First Edition, 1984, Page123] as: **Absolute ownership unencumbered by other interest or estate; subject only to the limitations of eminent domain, escheat, police power and taxation.**

OBJECTIVE:

Estimate Market Value as of 7/01/2002, the date of the inspection.

PURPOSE:

Conveyance value.

HISTORY:

The Subject has no conveyance history.

MARKETING TIME: The market value conclusion includes an estimate of reasonable exposure time and marketing time. By definition, exposure time precedes the valuation date while the marketing time occurs subsequent to the date of the appraisal.

An exposure time of 120-180 days is considered reasonable to induce a sale at the market value estimate. Analysis of market conditions indicates that the exposure time and marketing period are related to the economic real estate conditions as of the date specified in the appraisal. The exposure and marketing time assumes reasonable seller expectations and compliance with the definition of market value as defined within this report.

SITE:

The Subject is a legal use on a conforming lot. The building improvement can be duplicated under prevailing zoning regula-

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustments should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgement.

STATEMENT OF LIMITING CONDITIONS AND APPRAISER'S CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
2. The appraiser has provided a sketch in the appraisal report to show approximate dimensions of the improvements and the sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
5. The appraiser has estimated the value of the land in the cost approach at its highest and best use and the improvements at their contributory value. The separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
6. The appraiser has noted in the appraisal report any adverse conditions (such as, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
7. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
8. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice.
9. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
10. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have researched the subject market area and have selected a minimum of three recent sales of properties most similar and proximate to the subject property for consideration in the sales comparison analysis and have made a dollar adjustment when appropriate to reflect the market reaction to those items of significant variation. If a significant item in a comparable property is superior to, or more favorable than, the subject property, I have made a negative adjustment to reduce the adjusted sales price of the comparable and, if a significant item in a comparable property is inferior to, or less favorable than the subject property, I have made a positive adjustment to increase the adjusted sales price of the comparable.
2. I have taken into consideration the factors that have an impact on value in my development of the estimate of market value in the appraisal report. I have not knowingly withheld any significant information from the appraisal report and I believe, to the best of my knowledge, that all statements and information in the appraisal report are true and correct.
3. I stated in the appraisal report only my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the contingent and limiting conditions specified in this form.
4. I have no present or prospective interest in the property that is the subject to this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or the estimate of market value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property.
5. I have no present or contemplated future interest in the subject property, and neither my current or future employment nor my compensation for performing this appraisal is contingent on the appraised value of the property.
6. I was not required to report a predetermined value or direction in value that favors the cause of the client or any related party, the amount of the value estimate, the attainment of a specific result, or the occurrence of a subsequent event in order to receive my compensation and/or employment for performing the appraisal. I did not base the appraisal report on a requested minimum valuation, a specific valuation, or the need to approve a specific mortgage loan.
7. I performed this appraisal in conformity with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place as of the effective date of this appraisal, with the exception of the departure provision of those Standards, which does not apply. I acknowledge that an estimate of a reasonable time for exposure in the open market is a condition in the definition of market value and the estimate I developed is consistent with the marketing time noted in the neighborhood section of this report, unless I have otherwise stated in the reconciliation section.
8. I have personally inspected the interior and exterior areas of the subject property and the exterior of all properties listed as comparables in the appraisal report. I further certify that I have noted any apparent or known adverse conditions in the subject improvements, on the subject site, or on any site within the immediate vicinity of the subject property of which I am aware and have made adjustments for these adverse conditions in my analysis of the property value to the extent that I had market evidence to support them. I have also commented about the effect of the adverse conditions on the marketability of the subject property.
9. I personally prepared all conclusions and opinions about the real estate that were set forth in the appraisal report. If I relied on significant professional assistance from any individual or individuals in the performance of the appraisal or the preparation of the appraisal report, I have named such individual(s) and disclosed the specific tasks performed by them in the reconciliation section of this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in the report; therefore, if an unauthorized change is made to the appraisal report, I will take no responsibility for it.

SUPERVISORY APPRAISER'S CERTIFICATION: If a supervisory appraiser signed the appraisal report, he or she certifies and agrees that: I directly supervise the appraiser who prepared the appraisal report, have reviewed the appraisal report, agree with the statements and conclusions of the appraiser, agree to be bound by the appraiser's certifications numbered 4 through 7 above, and am taking full responsibility for the appraisal and the appraisal report.
