When You Think of a City

YOU do not think of a vast conglomeration of bricks, concrete and steel, of so many thousand population, so many miles of streets. You think of a city as a place to live in and work in, a place to GROW in—physically, mentally, spiritually. You think of an attractive home, good schools, opportunities to display your initiative, access to the big fundamentals of life.

In the ESSENTIALS of city life, size makes little difference; you will find this true if you stop and reason it out. This enables us to tell you why Middletown may be just the city you are looking for.

Middletown is a comparatively small city; it is also a healthy one: its average death rate for the last ten years is 14.0 per thousand. It is attractively situated on the Connecticut river about 30 miles from its mouth; it is the natural urban center of the rich and prosperous southern Connecticut Valley. The surrounding country is picturesque—even impressive. Transportation by railway, and motor truck is available; within a radius of 100 miles lie 20 cities of over 25,000 population and a total population of 3,000,000; New York is only 100 miles away and Boston 119 miles.

Middletown has 30 factories whose products in normal times are valued at over $14,000,000 a year. The normal payroll is $600,000 a month. Industry is highly diversified—steel, brass, stone, brick, woolen, cotton and silk products and typewriters predominating.

Middletown's stores have always been noted for the high quality and substantial character of their offerings.

In a civic and social sense Middletown is well worth consideration. Pure and abundant water is supplied by the famous Mt. Higby reservoir; a completely motorized fire department insures the safety of property; there are practically no unpaved streets. There are 40 acres of park land, 4 public playgrounds and a municipal athletic field. There is boating, tennis and golf. Civic, social, fraternal and religious work is organized and active; there are very few citizens who do not participate in one or more of these activities.

Educationally, Middletown bows to none. The seat of Wesleyan University, Middletown for a century has been a source of true American culture. There is a modern High School, a Junior-Senior High School, State Trade School, elementary schools and a business college.

Middletown lacks the noise, the turmoil and bustle of big-city life; but these are UNESSENTIALS, as all realize. THE THINGS THAT COUNT are just such things as we have outlined. If you are contemplating a change of location, either for business or residence purposes, we urge your careful consideration of Middletown's advantages.

"What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops, first, an intelligent interest; then, a sympathy; then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and, finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

Reference Advertising

HE who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

MIDDLETOWN NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear".

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

△ Indicates telephone at this number.

"(Right even)" after street description indicates even numbers on right side of street.

The symbol ◎ following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.
