The Price & Lee Company is pleased to publish the 1975 edition of the Middletown City Directory. The City Directory contains household and business information within five major sections.

- I. The Buyers Section, printed on ivory paper, displays under appropriate headings, those advertisers within the community who ardently support the directory service and desire to make a presentation of their products and services.
- II. The Classified Section, printed on yellow paper, lists alphabetically under appropriate headings those businesses contained throughout the City Directory, serving as a comprehensive guide of the business sector in the community.
- III. The Alphabetical Section, printed on white paper, is a complete alphabetical listing of all available households and businesses; and defines that information according to home and business addresses, occupations, marital status, etc.
- IV. The Street Section, printed on green paper, contains in alphabetical sequence all streets; and list under each street description in numerical or house sequence the dwellings on that street, the occupant, telephone number if possible, and an indication of whether the home is privately owned. Business information is characterized by job description where pertinent.
- V. The Telephone Section, printed on blue paper, is a complete list of all phones numerically listed under appropriate exchanges giving telephone number and owner.

The five sections of the City Directory, along with the introduction (including governmental information) gives a complete survey of the population of the Middletown community.

A Brief History of Middletown, Connecticut

Middletown, Conn., was settled in 1650 by families chiefly from Hartford and partly from Wethersfield. The settlement, on the "big bend" of the Connecticut River, was known by its Indian name of Mattabesett until November, 1653, when the General Court changed it to Middletown. The original township included territory that later became the towns of Middlefield, Portland, Cromwell and a portion of Berlin.

Town records for the first two years were lost or never kept. However, records of the town from 1652 are complete and the first recorded public vote was for a meeting-house completed that year. The settlers were energetic and hard workers, who obtained their living from the soil or from their ingenuity and the skill of their hands in making articles necessary for the little community.

The population increased slowly but steadily. By 1750 Middletown became one of the largest towns in Connecticut and the most important port. The town was a shipbuilding center and a large and profitable trade with foreign countries developed. Commerce also built up the farming interests so that the agriculturists as well as the merchants were prosperous and could indulge in home and educational luxuries. Trade with foreign countries had the effect of rounding off corners and smoothing rough places thus making Middletown noted for refinement and cultivation. It was the wealthiest and most cultivated town in New England, the greatest commercial center between New York and Boston.

The prosperity of Middletown, however, was suspended while the Revolutionary War was being fought. The news of the closing of the port of Boston in 1774 stirred the people of Middletown more than any other New England town, for besides the spirit of patriotism which they shared equally with all New England, there was the serious financial blow to commercial interests of this principal shipping port. Their unselfish patriotism, which the present generation regards as one of its most valued legacies, supported the first Continental Congress in any action they might take against the "unrighteous" act of the British Government, even to total abolition of trade with the West Indies and Europe.

When the final break came in 1776 Middletown's officers and privates in the Revolution were many and distinguished for their unwavering patriotism and skill in the profession of arms. In every succeeding war and national emergency Middletown's sons have gone forth to do honor for their country and their city.

Middletown's growth was slowed following the American Revolution. The merchants, who never could recoup their war losses, turned to manufacturing. In place of West India shipping came busy factories turning out the variety of products which started the city's growth along different lines.

First there were woolens, firearms and ammunition for the Civil War, then later marine products, narrow fabrics, lace, rubber goods, fertilizers and now electronics, machine tools, dies, metal boxes, silverware, automotive accessories, brake lining, clothing and many other items which are distributed and sold all over the world. There are now over 72 important industrial companies in Middletown.

Today Middletown is a city of 36,900, the county seat of Middlesex County, on the Connecticut River 15 miles south of the capital at Hartford, and the natural center of a trading area containing over 115,000 people. The excellent system of highways criss-crossing the county and state make Middletown easily accessible from any quarter of the state. It is the home of an insurance company organized in 1836 and some of its financial institutions rank among the oldest in the nation. Its modern shops and stores are among the finest in New England and offer a wide variety of merchandise. Middletown's business services, professional people, hospital, public utilities and civic groups offer every type of service essential to modern living and health requirements.

Middletown and Middlesex County provide a vacationist's paradise. Here or within a few miles, are found boating, swimming, fishing, camps, golf, everything needed to enjoy life at its fullest. Middletown's residential areas are known far and wide for combining beautiful examples of early old American homes with the modern functional design of present-day houses.

In 1895 a group of Middletown businessmen formed "The Society for the Encouragement of Connecticut Manufactories" which in December, 1910 was incorporated as the Manufacturers Association of Connecticut. For over 300 years the business people and the citizens of Middletown have been working and living together, developing a spirit of mutual understanding which encourages and supports the growth of the city and its business and cultural activities. The leadership that its strong men gave it over the long years

has brought Middletown to its present standing as a good place in which to live, work and play. Our people look forward to many prosperous and happy years because of the typical determination of every good American family to "do better" by their children than they did by themselves.

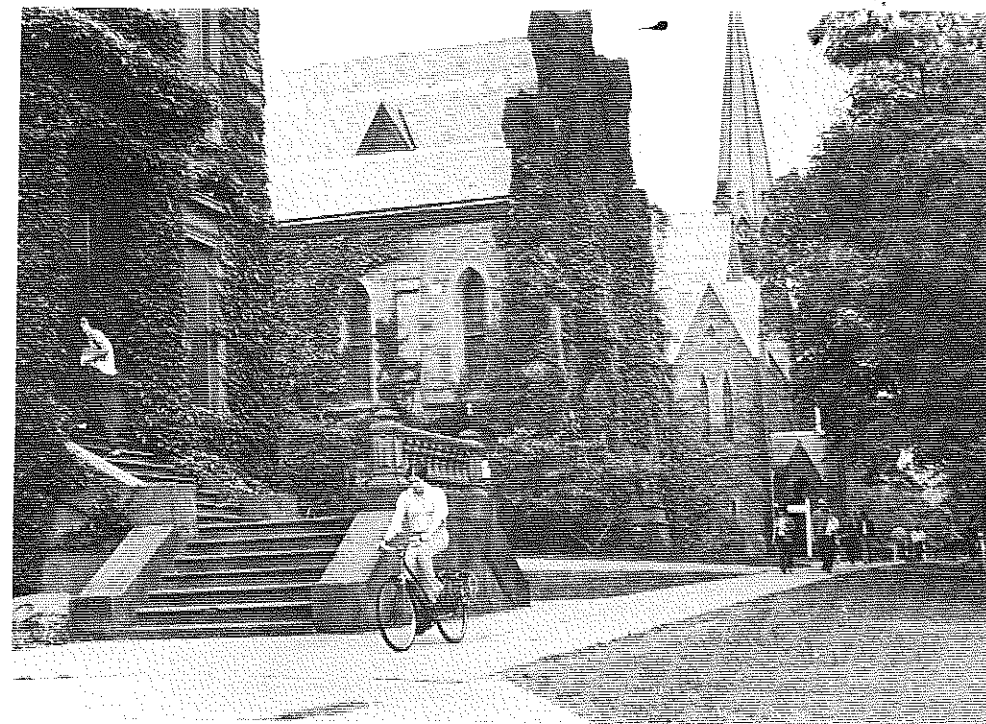

Based on Roberts "Historic Towns of the Connecticut River Valley, 1906"; "Middletown's Two Hundred and Fiftieth Anniversary", The Middletown Tribune Co., 1900; and "The Story of Middletown", The Middletown Press, 1950.

The City of Middletown was incorporated in May, 1784. Although it continued to be among the largest communities in population in the state, its people were concentrated in the immediate area along the river. The principal commercial activities of the town were connected with shipping and life centered on Main Street which parallels the river banks.

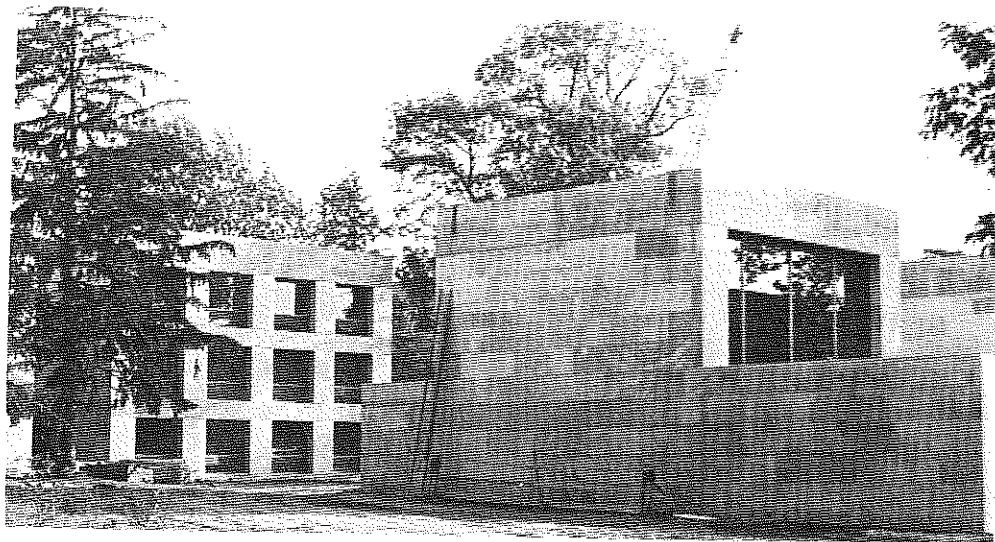

From the first settlement of the town much attention had been paid to religion and education. The first public worship in Middletown was held under the shade of the grand old elm tree. Today there are twenty-seven fine church buildings serving over eleven religious denominations.

The public schools of the city have always been known for their excellence. The Middletown High School was the first educational institution of its kind in Connecticut. In 1839 the General Assembly passed an act creating the "City School Society" and the following year a high school was established in rooms under the Episcopal Church. Rev. Alfred Sax, a professor at Wesleyan, was the first principal.

In 1831 Wesleyan University began its honorable and useful existence, receiving a charter from the General Assembly after a public and private subscription had been raised by Middletown's citizens amounting to \$18,000. An additional \$22,000 was raised by the Methodist Episcopal Church to form the original endowment of \$40,000 asked by the former owners of the university buildings. Wesleyan today is a non-denominational college of liberal arts and sciences.

WHAT DO YOU WANT FROM YOUR AD DOLLARS?

PERMANENCE?

An annual city directory delivers more mileage for every ad dollar than any other medium. Implicit in every directory ad is the message that this advertiser plans to be around for a long, long time. Fly-by-nights will not buy a space months in advance of publication for exposure that will continue for several years.

23rd Psalm

The Lord is my shepherd; I shall not want. He maketh me to lie down in green pastures; He leadeth me beside the still waters. He restoreth my soul; He leadeth me in the paths of righteousness for His name's sake. Yea, though I walk through the valley of the shadow of death, I will fear no evil, for Thou art with me; Thy rod and Thy staff, they comfort me. Thou preparest a table before me in the presence of mine enemies; Thou hast anointed my head with oil; my cup runneth over. Surely goodness and mercy shall follow me all the days of my life; And I shall dwell in the house of the Lord for ever.

WANT TO SELL NEW-COMERS?

To a new-comer the city directory is the new home town. It is the only complete guide to everything and everybody in town. Who is who?, what is where?, which is closer?, who sells what?, are just some of the hundreds of questions for which new-comers look to the city directory for answers.

Often they have explored their new home town in advance by using the city directory in a library where they were leaving.

Your ad message in the city directory reaches them first.

MIDDLETOWN STREET DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of house-holders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)
The abbreviation r between the street number and the name signifies "rear".
The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.
"Right odd" after street description indicates odd numbers on right side of street.
The symbol * following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.
